

## **TIMOTHY BLAKE**

P. 617-240-3589 E. [Timblake17x@gmail.com](mailto:Timblake17x@gmail.com) Portfolio:  
[timblake.tech](http://timblake.tech)

### **Summary**

Proficient in HTML, CSS, Javascript, JQuery, PHP, Wordpress, SASS, React.js, Node and MongoDB and SCRUM Agile methodologies

### **Work Experience**

**Resilient Lab**, Web Developer

September 2017 -

Present

Boston, MA

- Hands-on experience in software design and development
- Built client websites using Wordpress, Jekyll, PHP, SASS, and Javascript
- Knowledgeable of the latest Web 2.0 enhanced UI development (React, Angular and Vue) and responsive design frameworks (Bootstrap, Foundation, Material UI)
- Work collaboratively with Product Management, UX and Design to determine the best methods of content implementation
- Experienced in iterative development and Agile scrum methodologies
- Experience with Google Analytics suite for tracking user behavior, site performance, acquisition patterns and traffic flow
- Developed technical solutions and created estimates based on requirements documentation

**Resilient Coders Bootcamp**, Web Developer

June 2017 -

September 2017

Boston, MA

- Consulted with clients on the design, development, and deployment

of responsive websites

- Built responsive site mockups with HTML, CSS, and SASS
- Used API's to build small web applications
- Created several game web applications including a game inspired by Asteroids a classic

### **Automotive Service Excellence (ASE), Certified Master Mechanic**

Held several roles as a master automotive technician. As a mechanic I worked with technology to manage and diagnose cars. I was inspired by self-driving cars and IOT innovation to become a software engineer.

- **Hyundai**, Mechanic - Lynn, MA
- **National Tire Battery (NTB)**, Mechanic - Virginia Beach, VA
- **Image Concepts And Designs**, Supervisor - North Reading MA

### **Education**

**Advanced Technology Institute**

September

2008 - February 2010

Virginia Beach, VA

Associate's Degree, Occupational Science and Automotive

Interests include: Game Design and Game Theory, Mobile App Development, Autonomous Vehicles
